⚠ WARNING

Risk of injury from cuttingm

Although the cable trays are produced with maximum effort to minimize sharper edges, it is necessary to wear protective gloves to carry, grip and work with cable elements.

Material Compatibility

Ensure that the bolt and nut are compatible with the materials they are fastened to, in order to prevent galvanic corrosion or other undesirable reactions.

Regular Inspection

In environments with high vibrations or temperature fluctuations, it is recommended to regularly inspect the condition of the joints and retighten them if necessary.

Safe Use

Under normal and foreseeable conditions of use, there are no risks to consumers, provided that proper installation and usage are carried out in accordance with the installation manual.
