

typ number	nominal thread diameter	bolt length
NSMP 5x10_ZNCR	M5	10
NSMP 6x10_ZNCR	M6	10

product description: This bolt is used to connect cable trays or cable trays with accessories, or to attach trays to supporting structures. Used for the same purpose on cable ladder systems.

To protect the cables, the bolt head is inside the cable tray.

Fastening with an NSMP 6X10 bolt provides a conductive bond. Also suitable for varnished trays.

The NSMP 5X10 bolt is for attaching the connection of the NKZ 20X40 cable tray.

surface finish: ZNCR - electrolytic galvanised

sales amount: 100 pcs

storage: ČSN EN 60721-3-1

WARNING

Risk of injury from cutting

Although the cable trays are produced with maximum effort to minimize sharper edges, it is necessary to wear protective gloves to carry, grip and work with cable elements.

Material Compatibility

Ensure that the bolt and nut are compatible with the materials they are fastened to, in order to prevent galvanic corrosion or other undesirable reactions.

Regular Inspection

In environments with high vibrations or temperature fluctuations, it is recommended to regularly inspect the condition of the joints and retighten them if necessary.

Safe Use

Under normal and foreseeable conditions of use, there are no risks to consumers, provided that proper installation and usage are carried out in accordance with the installation manual.
